

## Web Developer ASP/ASP.net

North Sydney Marketing Agency

We require a Web Developer with a minimum 1-2 years commercial experience to develop database driven applications in a marketing environment.

The role involves extensive liaison with the Account Service team to develop and maintain web based campaign databases. Essential skills include MS SQL Server2000, ASP, ASP.NET (VB), Crystal Reports and Flash. The databases are designed and customised to fulfil a diverse range of marketing campaigns, including customer loyalty and incentive campaigns.

The successful candidate will have strong interpersonal skills, be highly organised and demonstrate a high attention to detail while multitasking on a variety of projects.

Synchro is a quality endorsed, performance-based employer – the remuneration and benefits will reflect the importance of this position to the Agency. Please forward your application to [synchro@synchro.com.au](mailto:synchro@synchro.com.au)
